- PROGRAM DESCRIPTION:** Early Intervention (EI) is a statewide system that provides coordinated early intervention services to parents of eligible children under the age of three with developmental delays or disabilities. EI is grounded in the philosophy that young children learn best from familiar people in familiar settings. Every family served in EI will have a local EI team that consists of a service coordinator, service providers (including an occupational, physical and speech therapist and developmental specialist), and your family. Your team works with you in your home or other places you and your family spend time to develop a coordinated plan called an Individualized Family Service Plan (IFSP). You and your team will work through your IFSP plan to use your existing supports and resources—and build upon them—to learn to enhance your child’s learning and development.

The Early Intervention Program provides:

- **Developmental Evaluations for children under the age of 3** by a multidisciplinary team who will determine if your child has a developmental delay and/or need for Early Intervention service(s). This Evaluation is provided at NO COST to your family.
- **Service Coordination** at NO COST for your child and family if your child’s Evaluation determines a need for Early Intervention (EI) services. The EI Service Coordinator will assist your family with accessing all EI services that the team determines are needed. The EI Service Coordinator will develop, with you and the team, your child’s Individualized Family Service Plan (IFSP).

Swim time is available. YMCA Preschool is a great way for your child to interact with other children and to gain the social skills they will need as they grow and mature into school-agers.

School Age Child Care- Our Y-Club participants learn the importance of performing community service projects, and staff incorporate Character Development into the daily lesson plans by emphasizing the four core YMCA values of Caring, Honesty, Respect and Responsibility into all our Y-Club activities. YMCA Y-Club activities all work together to help children grow physically, mentally, and spiritually. Homework assistance, fitness and wellness, and arts and humanities are just a few of the core services that our curriculum is designed around. The Pickaway County YMCA Y-Club program is a wonderful place for children to spend their out of school time!
